PROFESSIONAL SUMMARY

Motivated Cyber & Digital Science graduate with practical knowledge of cybersecurity, digital forensics, and network security. Familiar with tools like Wireshark, Nmap, and Linux. Quick learner with strong interest in threat detection, security analysis, and practical cybersecurity skills. Seeking an opportunity to gain hands-on experience in cybersecurity and SOC operations.

EDUCATION

MSc. Cyber Security — School of Information Technology, Indira University, Pune July 2026 – Oct 2028
B.Sc. Cyber & Digital Science — K.K. Wagh ACS & CS College, Nashik 2023 – May 2026 | CGPA: 9.36
Diploma in Cyber Security — White Band Associates, Nashik 2025 – 2026
HSC (12th) — Karmveer Abasaheb Alias N.M. Sonawane College, Satana 2022 – 2023 | 67.83%

EXPERIENCE

Cyber Security Intern — White Band Associates, Nashik June 2026 (1 Month)

- Completed Cyber Security Summer Internship Program covering networking fundamentals, Linux administration, and cybersecurity fundamentals
- Gained hands-on exposure to ethical hacking basics, problem solving, and technical documentation practices
- Completed all assigned tasks, practical exercises, and a final project

Cybersecurity Intern — Codec Technologies India 3 Months

- Developed a phishing simulation using HTML, PHP, and Python to demonstrate credential harvesting and security awareness
- Performed vulnerability assessment on DVWA using Nmap and SQL Injection techniques

PROJECTS — DIGITAL FORENSICS & SECURITY ANALYSIS

- Performed disk imaging, memory capture, and hash verification using FTK Imager and Autopsy
- Conducted metadata and timeline analysis for digital evidence investigation
- Analyzed network traffic and identified anomalies using Wireshark
- Performed email, browser, and mobile forensics using ADB (Android Debug Bridge) for Android device data extraction and analysis
- Applied steganography techniques for hidden data detection identification

TECHNICAL SKILLS

- Digital Forensics: Evidence Acquisition, FTK Imager, Autopsy, ADB (Android Debug Bridge)
- Security Tools: Nmap, Wireshark, Burp Suite, Splunk | Threat Intelligence: OSINT Analysis
- Networking: Network Traffic Analysis, Log Monitoring
- SIEM Basics: Splunk Log Monitoring
- Programming: Python, C, HTML, PHP | OS: Kali Linux, Windows
- GRC & Compliance: IT Act 2000, Cyber Law (India), RBI Guidelines, ISO/IEC 27001 (Basics)

CERTIFICATIONS

- Certified Cyber Crime Intervention Officer (CCIO) — ISAC (AICTE Approved), 2024
- Cybercrime First Responder — CopConnect & ISAC
- Cybercrime Awareness Training — Nashik Police

SOFT SKILLS

Communication • Analytical Thinking • Problem Solving • Quick Learner • Team Collaboration
